276AL037300	3/8 x 3"	(10x 75mm)

Our newest line of economy rollers are perfect for hard to reach areas, especially those where conventional roller handles can be a problem. Our solid aluminum hexagon handles are long lasting. Sizes start at 1/4 x 1" and styles include Thin Fin, Slotted Paddle, Paddle and Bubble Buster. Don't be fooled by the small size. These mini rollers have strong galvanized steel frames, as much as 30% stronger than our competitors.
