

Rollers for Vacuum Infusion & RTM Lite

Series 504 Tape Application Rollers

These rollers will assist in applying sealant tape evenly for a better bond and longer tape life. HDPE design will not damage the tape or film during the application. No mold damage or tape kinks when properly used.

(From left to right)

- 504A/B 150050 1.5 Dia. x 1/2" wide
- 504A/B 150075 1.5 Dia. x 3/4" wide
- 504A/B 150100 1.5 Dia. x 7/8" wide
- 504A/B 150125 1.5 Dia. x 1-1/2" wide

Series 508 Radius Compression Rollers

These rollers will assist in pushing glass and resin evenly into corners & fillets both before and after vacuum is applied. Proper usage will dramatically reduce the number of voids while maintaining consistent part thickness.
